SOUTH-SOUTH COOPERATION ON PEACE AND DEVELOPMENT CONCEPT NOTE

To explore the synergies between the Sustainable Development Goals (SDGs), interlinked with the debate on the sustaining peace agenda and the strengthening of South-South Cooperation is a matter of great relevance in a moment of growing complex conflict and crisis. Those synergies, however, have been little systematized, as research is still produced separately by peacebuilding, security and development communities and actors (including UN actors). In this context, the side-event aims at sharing knowledge about SSC on P&D, discussing diagnosed opportunities, emerging initiatives, good practices and challenges.

This side-event gathers specialists from different United Nations member states, agencies and inter-governmental organizations with great experience in conflict prevention and sustaining peace.
